MAYOR'S INAUGURAL ADDRESS

Ladies and Gentlemen:

My first pleasure and duty, in greeting the City Council at the beginning of 1952, is to welcome the three new members who have been elected to Council for this year. The City of Kingston has always been noted for having a large—as well as a good—City Council, but now it will be still larger, and will, I am afraid, tax the physical facilities of the Horseshoe. However, we should anticipate that its wisdom will grow more than proportionately. On behalf of the old members of the City Council I extend a most cordial welcome to the new members elected from the annexed areas.

The problems facing the City Council are probably larger and more numerous than ever before. Over and above other demands, the growth of the City in area and population has meant increased problems for the City administration. Some of these I shall mention later.

Looking back over the year 1951, we can see certain definite accomplishments. In the first place, the formal proceedings of annexation which have been under discussion for three years, have now been completed. This, I believe, will in the future be regarded by everyone as one of the wisest steps ever taken by this City. The renovation of sections of the City Hall, namely the Council Chamber, the north wing and the police section of the building, have been substantially completed or are in process of completion. The reorganization of the Board of Works has proceeded and, I think, is definitely working towards a better and more effective set-up. The Community Centre has been in active operation for a year now and its report should prove interesting. A Civil Defence organization has been brought into existence. The credit position of the City has been kept at its customary high level, despite the many demands made upon it.

In looking forward to the year 1952, we face a number of problems. In the first place, the integration of the new areas into the City is a job which will tax the energies and ingenuity of the City administration. It must be realized that this is a very extensive task which cannot be accomplished over night, but the heaviest impact will be in 1952. I am quite certain that there will be many difficulties and uncertainties in this work, but I know that this Council is striving hard to give these areas and their residents all the services and amenities which go with City residence. If it is slower than they think it should be, it will be because of the difficulty and the expenditures involved.

Another problem which I am certain will be before Council before very long is that of making a start on a sewage disposal system. Going back thirteen years to 1939, two large civic works were then talked of for Kingston—water purification and sewage disposal. Water purification is now under construction and should be completed by the end of 1952; the Public Utilities Commission is to be commended for this. Sewage disposal has been much talked of, and much basic thinking has been done about it, but we are now faced with the necessity of making some decisions on this matter, as to the location of the plant, the method of financing, and the time of starting. There should be recommendations to this Council in the very near future dealing with these matters. It is obviously impossible to do all this work at once, but it is equally true that unless it is started, it can never be completed—even over a period of years. But it is also necessary that we should give careful consideration to the possible methods of financing such a work, and I think we should consider the use of sewer rentals rather than property taxes. I believe that further steps will have to be taken to bring the City Hall up to date. Some internal renovation will be required in the south part and I believe that the outside of the building should be pointed and repaired. We have a magnificent building here and we should make every effort to preserve it.

The financial position of the City will need to be watched carefully if the high credit rating of the past is to be maintained. Despite the need for capital expenditures, the debt of the City has not grown excessively. The Corporation has received excellent prices for its debentures and I am informed that Kingston is among the top five or six cities in Ontario whose debentures receive a preferential rating. This, I think, is a tribute to the administration of the City and to City Council itself. I hope that the sound principles of finance which have been followed in the past, will be continued in the coming year.

It is impossible to forecast now any mill rate for taxation in the coming year, a point about which every citizen is concerned and worried. The problem is to make the necessary and proper expenditures, and at the same time exercise prudence and economy in avoiding unnecessary expenditures. The addition of the annexed areas makes budget making very difficult this year and rising costs are still with us. At the same time I hope that we will be able to provide adequately and reasonably for the necessary services of the City, for the capital expenditures required, and at the same time establish the tax rate somewhere close to its present level. This depends in part on other tax raising bodies but I hope Council will strive for this goal. The taxpayers of this City cannot face continuous increases in local taxation without outside help. Either grants in aid or new revenues will be needed from the province.

I would like to take this opportunity of expressing the Council's appreciation of the work of the various civic boards and commissions. All of these—School Boards, Planning Boards, Library Board, Public Utilities Commission, the Board of Health, the Board of Police Commissioners, the Board of Trustees of the Community Centre—are most co-operative with the City. In fact there are very few cities in which the feeling among all these bodies is so good; it is so easy to find grounds for complaint and bickering if the desire is there. I hope that in this year ahead these good relationships will continue. And also I would like to express to Dr. Jones and his colleagues the sincere thanks of this Council for the effective way in which they have organized civil defence.

I must also express the appreciation of the Council and citizens to the officials and employees of the City. Any government is just as good as its civil service—and no better. The City of Kingston has been fortunate in the calibre and loyalty of its officiers but it must continue to build up its civil service; indeed, with its new responsibilities it must be expanded. Fair dealing with its employees must continue to be Council's policy and I believe we must make some wage and salary adjustments to meet the changes which have occurred and are occurring. I believe this matter of policy should be dealt with at once.

In conclusion may I say that in my years in Council I have found its members generally fair and anxious to meet on common ground. With few exceptions there has been little in the way of personalities and petty bickering. I hope that the good personal relationship will be continued in 1952 and that we will again co-operate and work for our common goal—a better Kingston.

Moved by Ald. Weller, seconded by Ald. Cunningham (2) that the matters dealt with in the Inaugural Address of the Mayor be referred to the various standing committees having jurisdiction in the matters dealt with therein. Carried on the following division: For (22), Against (0).

UNFINISHED BUSINESS

Ald. Smith requested that the appropriate Committee consider the policy to be followed in financing relief sewers, particularly with reference to the newly annexed area so that it would be possible to do some work this spring.

Ald. A. B. Smith also stated that the septic tank requirements of the Medical Officer of Health were causing some concern in the unsewered areas. To build a septic tank system might cost as much as $1,000. An alternative might be building a complete treatment plant on the Little Cataraqui River. He requested that a policy be formulated so that all those building in unsewered areas would know what type of septic tank to build.

Ald. A. B. Smith then requested that the matter of disposing of the house at Queen and Division Streets on City property should be considered by the appropriate Committee.

Ald. de St. Remy suggested that recognition be given to the members of the Kingston Curling Club who had won the Governor-General's Trophy and the Ontario Tankard. The Mayor replied that the Committee on Finance and Accounts had this under advisement.

(f) Employees paid on an hourly basis shall be paid for the actual number of hours worked.

18. The classifications of positions and salaries of employees, exclusive of heads of departments, shall be in accordance with such schedules as may be approved by resolution of City Council.

Where an employee has been continued in the service of the Corporation the authorized deduction may be continued at such rate as shall provide an annuity of $480.00 and the salary increase shall be one-half of such total deduction; but when the accumulated premiums and interest are sufficient to purchase at that date an annuity of $480.00 the salary increase shall be reduced to five per cent of the employees salary or wage.

(v) The maximum salaries fixed by the City Council shall be increased by the amount of the increases granted to any employee by the provision of this section; but any percentage salary increase or deduction under this section shall be calculated on the employee's salary under the Schedule of salaries before the percentage increase.

(vi) The City Treasurer is hereby authorized and empowered to pay out of the appropriations provided for this purpose such amounts as shall be necessary to meet the salary increases as herein provided.

(vii) The salary deductions authorized under this section shall be made by the City Treasurer from each and every pay commencing with the first pay following the admission of the employee to participation.

The Mayor replied that the resolution of the Township of Pittsburg had been endorsed and sent to Mr. W. M. Nickle, the Member of the Legislative Assembly for Kingston.

Ald. Trumpour endorsed the proposal for speeding up the construction of the four-lane highway. He suggested that the Automotive Dealers Association be asked to advise on the preparation of specifications for tenders for automobiles.

The Mayor stated that the Commissioner of Works had been ill for two or three weeks and had returned to hospital that day. He was sure that Council would wish to join him in expressing their regrets to Mr. Currie for his long and continued illness.

UNFINISHED BUSINESS

Ald. Jackson inquired if a petition for a sidewalk had been received from the residents of North Albert Street. The Chairman of the Board of Works stated that such a petition may well have come to the Engineering Department but it had not yet come before the Board of Works for its consideration.

Ald. Shurtleff said that he had received several complaints about the dumping of ashes, garbage and rubbish on the land owned by the City on Helen Street, and he asked that steps be taken to remedy this situation.

Ald. McMahon said that he wished to endorse the remarks of Ald. Shurtleff. He also wished to draw the attention of Council to conditions in the area between the Palace Road and Helen Street, between Park and Carruthers, where the streets were higher than the surrounding property and, consequently, the back of the yards were flooded for several weeks each year. He felt that, although the City had no legal responsibility, it had a moral responsibility to provide drainage for these lots and requested that the Board of Works consider this problem.

Ald. Keyes stated that he had received complaints about the paper boys leaving loose papers blowing around on Princess Street above the Traffic Circle, and he asked that this matter be drawn to the attention of the appropriate authorities.

Ald. Compton stated that the Planning Board had considered the possible uses for the land owned by the City for a shopping centre and looked favourably on the City retaining this property for possible future civic purposes and its being used as a playground in the interim. Ald. Trumpour stated that the Parks Committee would use the grounds for a ball diamond if Council were willing.

Ald. A. B. Smith suggested that if the shopping centre were used for baseball, it would allow the small children to use Alamein Park more fully without being interfered with by the older children.

Ald. Trumpour inquired if there had been any action on the parking problem in the King-William area. He suggested that King Street be made a 2-hour parking zone as far as Earl Street, which would eliminate the employees of the Locomotive Plant who parked there all day.

Ald. Jackson asked if the Outer Station bus could be extended to the Rideau Heights area. At times this bus stopped at the Outer Station five and ten minutes, and he thought that it could, in this time, run further out Montreal Street. The Mayor stated that this matter was under consideration.

UNFINISHED BUSINESS

Ald. Tugwood stated that he had received complaints about the holes in Concession Street. Also, he understood that there had been an accident on Montreal Street at the subway and he would like to know if anything had been done about straightening Montreal Street at this point, which he believed had been mentioned in Council at one time.

Some people had been complaining about the papers on Division Street from the trucks going to the incinerator which were uncovered and that they were blowing in the Division Street Park. He also wished to know if bus service could be extended into Wartime Housing on Sunday.

Ald. A. B. Smith asked if any steps had been taken to dispose of the house the City bought at the corner of Queen and Division Streets. The Mayor replied that tenders had been called and the house advertised in the papers.

Ald. St. Remy drew the attention of Council to the editorial in the Kingston Whig-Standard on the planting of trees by the City. He asked that preparations be made in ample time to obtain trees for next year as he thought it was too late to get trees for this year already.

Ald. Tugwood replied that at the last Parks Committee meeting it had been decided that any citizen who wanted a tree in front of his house could get one from the City.

Moved by Ald. Crawford, seconded by Ald. Trumpour (5) that Report No. 46 of the Committee on Finance and Accounts be received and adopted as amended. — Carried on the following division: For (22), Against (0).

UNFINISHED BUSINESS

Ald. Byron asked when it was proposed to start work on the Place d'Armes. Ald. Weller replied that he understood that work had been started in the last few days.

Ald. Shurleff requested an amendment to the By-law to Provide for the Licensing of Plumbers. A large property owner had employed a foreman on his buildings who also did the plumbing work. As this man had no plumber's license, he had been stopped from doing plumbing work by the Building Inspector. He had applied then for a license but had been refused an opportunity to try the examination. Ald. Shurtleff suggested that there should be an appeal from the Board and that when a man is hired to do plumbing for a person's own use, a license should not be needed. He requested the Committee on Administration and Legislation to consider these suggestions.

Ald. McCullough stated that a man who had been doing plumbing for eight years, should be given an opportunity to try the examination.

Ald. Compton explained that the Examining Board had refused the man permission to try the examination because it appeared that he had no experience as a plumber.

Ald. A. B. Smith stated that lack of information on the application should not bar a man from the opportunity to appear before the Board personally.

Ald. Tugwood stated that the applicant had not been informed of the decision of the Examining Board, which was inefficient.

Ald. Byron stated that when the By-law was passed anyone practising plumbing for three years could obtain a license within three months without writing an examination.

Ald. McCullough stated that the method of dealing with applications for a plumbing license was inadequate. Ald. Ross, McMahon and Keyes endorsed this view.

Ald. Cunningham asked if anyone was responsible for the care and maintenance of the City cars allotted to the various departments. He had heard that the Board of Health cars had not been washed since they were purchased.

Ald. Tugwood inquired when Sunday bus service would be provided for the Wartime Housing area. Ald. Crawford replied that the Bus Company had been requested several times to report on this matter, and also on service to the Rideau Heights area.

Ald. Ross asked when certain unsatisfactory sidewalks would be rebuilt. He stated that he had also received complaints about the hole at the corner of Clergy and Johnson Streets.

Ald. Culcheth raised the question of the sewage pumping station in Portsmouth, and suggested that its present proposed location would spoil the park, and that instead it might be located in the rear of the Town Hall or in the Hall itself.

Ald. Keyes requested that the holes at the corner of Princess Street and the Mowat Road be repaired, and also that the pole at the south side of Princess Street at the Mowat Road be moved so that the corner could be widened.

Ald. de St. Remy asked what the cost of bus service to the outlying areas had been. The City Clerk-Comptroller stated that the cumulative loss on buses operated for the City to the end of February was $15,000.

UNFINISHED BUSINESS

Ald. Byron again asked when the Place d'Armes would be paved. He also asked how many ramps the Board of Works intended to place on the west side of Division Street between Garrett and Brock Streets, as this was reducing the already scarce parking space.

Ald. Black asked what action had been taken on his suggestion that the Public Utilities Commission be requested to place a light in the laneway off Clergy Street between Brock and Johnson, and he also suggested that the Board of Works erect a street sign at the corner of Aberdeen and Johnson Streets.

Ald. Tugwood drew the attention of Council to the dangerous condition existing at the corner of Queen and Barrack Streets, where there had been several accidents, and he suggested that the area be marked at the corner where parking was not permitted.

Ald. Casterton stated that the Stop sign at the North-west corner of Barrie and Queen Street was hidden by a tree, and requested that some action be taken.

Ald. Shannon asked that action be taken to relieve the dust in the annexed area and also that provision be made for bus service on Division Street, and night bus service for the Rideau Heights area.

Ald. Ross stated that Johnson being a through street, the corner of Johnson and Barrie was very dangerous .

Ald. McCullough asked when would work commence on the Place d'Armes. Ald. Weller in turn asked the Commissioner of Works, who replied two or three weeks should see the work started. Ald. McCullough suggested that in the meantime the holes be filled. He also pointed out that the widening of Queen Street would improve the vision at the corner of Queen and Barrie, and he asked when Queen Street would be widened.

Ald. C. A. Smith inquired if Council action was necessary on the Chamber of Commerce request for a courtesy ticket, or if the Police and Board of Works could settle this without bringing it back to Council. The Presiding Officer replied that this would depend on the course of action taken by the Board of Works.

Ald. Trumpour requested the Board of Works to consider again two-hour parking on King Street as far westerly as Earl. He did not believe that the Locomotive parking lot is the answer, as it will not force cars off the street. Ald. Weller replied that when the Locomotive parking lot was completed, the Board of Works would reconsider the two-hour parking limit.

Ald. A. B. Smith said that, in his opinion, the two-hour parking limit on King Street would discriminate against the Locomotive Company employees. Ald. Tugwood stated that he knew that the Locomotive Company was taking steps to provide for parking for their employees.

UNFINISHED BUSINESS

Ald. McCullough stated that the fire hydrant in front of the Kresge building on Princess Street was so close to the curb that cars were scraping their fenders in parking, and he asked that the responsible parties take appropriate action.

Ald. Byron drew the attention of Council to the noise caused by transports proceeding westward on Queen Street. He suggested that strong action was necessary.

Ald. Chown expressed sympathy with Ald. Byron and pointed out that in other areas of the City, the traffic created a nuisance at times. Ald. St. Remy suggested that when the new four lane highway was built, this would divert the transports from the City streets and eliminate the problem. Ald. Shurtleff said that the west end had some experience with Ald. Byron's problem when traffic was detoured while Princess Street was being widened.

Ald. C. A. Smith drew the attention of Council to the bottleneck created by the repairs on the LaSalle Causeway, which he suggested could be made at night when they would not obstruct traffic. Ald. Compton supported Ald. Smith and suggested that the attention of the federal authorities be drawn to this.

Ald. Black suggested to the Board of Works that instead of having a large Board of Works crew on outside work, the City should contract all its paving work. The Board of Works had been reorganized a few years ago but there seems to have been no improvement in efficiency.

Ald. Shannon said that he wished to draw the attention of Council again to the condition of roads in the annexed area.

UNFINISHED BUSINESS

Alderman Jackson stated that the sidewalks on North Albert Street should have been constructed before school commenced, and requested immediate action.

Ald. A. B. Smith stated that the sidewalk on North Victoria Street was being placed too close to the street line. Forty feet between the sidewalks was ample width. Alderman Trumpour remarked that wide boulevards could be attractive and that they would provide a width for possible future road widening. Ald. de St. Remy and Ald. Shannon stated that they were opposed to wide boulevards.

Ald. Byron suggested that Queen Street should be made a One Way street going west and Brock Street a One Way street going east.

Ald. Keyes requested that oil be placed on the shoulder in the road in front of Aunt Lucy's Restaurant on Princess Street to control dust.

In reply to a query from Ald. McCullough, the Mayor advised that the form of the Smoke Abatement By-law had been checked by the City Solicitor and would be ready for second reading at the next Council meeting.

Ald. Tugwood urged that the Welfare Committee should assist in finding accommodation for people who would be looking for new living quarters as a result of the Trailer Control By-law. Ald. Cunningham replied that the Welfare Committee would give what assistance it could, but that the housing situation was extremely critical. Ald. Compton stated that he doubted if the Trailer By-law could be enforced in view of the acute housing shortage, but it seemed to him that the Administration Committee was exceeding its authority in agreeing to review alleged violations of the By-law before any prosecutions were undertaken. In reply, Ald. Crawford stated that the trailer problem was a serious one and the By-law had been passed to prevent the increase of trailers and gradually to eliminate them. The policy of the Administration Committee of reviewing each case before any prosecution was launched was only carrying out the assurance that he had given in Council when the By-law was under consideration. The Committee was still receiving complaints from property owners about the nuisances created by trailers; however, unless instructed otherwise by Council, the Committee would review each case before legal action was taken. Ald. St. Remy stated that many home owners in areas near trailers were anxious to see the law enforced. Ald. Byron stated that he thought there would be difficulty in enforcing the By-law and suggested that the Administration Committee consider the establishment of a trailer camp.

Ald. Byron also requested that the Administration Committee give consideration to having the bus company issue transfers on their Sunday service to Cataraqui cemetery.

Ald. Shannon requested that bus service be provided for persons living on Division Street.

In reply to a question from Ald. C. A. Smith about the airport situation, the Mayor advised that statistics obtained from other municipal airports were being analyzed.

Ald. Chown asked what factors were involved in not accepting the offer of the Flying Club to operate the Airport at a cost of $3,000 a year to the City. The Mayor replied that a commercial service would cost more than $3,000 a year. The question of an Airport would be dealt with at the next meeting of the Finance Committee.

UNFINISHED BUSINESS

Ald. Keyes inquired where the Tourist Information Booth on No. 2 Highway was to be built. The Mayor replied that it would be located immediately to the east of the Kingston Motel.

Ald. Byron suggested that the Traffic and Safety Committee investigate the possibility of a No Parking sign for Frost's Warehouse on Ontario Street.

The Mayor stated that the Department of National Defence was willing to enter into an agreement for the provision of water and sewage disposal facilities for Barriefield Camp. The Public Utilities Commisson had been aware of the negotiations and had been most cooperative. The Finance Committee had authorized the negotiations and a special meeting of Council would be held in the near future to discuss the proposals.

Ald. Ross requested that the Traffic and Safety Committee take steps to control speeding on Johnson and Barrie Streets. Ald. Byron suggested that signs be placed on Johnson Street showing the speed limit and that a system of speed zones be introduced. Ald. The Department of National Defence will be responsible for supplying and operating at its own expense any pumps required to increase the water pressure from this point on.

(2) The water will be supplied to the Department of National Defence, (for its own use only and not for resale) at a rate of 8 cents per 1,000 imperial gallons. The Public Utilities Commission agrees to supply up to a maximum of 1,250,000 gallons per day, but the Department of National Defence is not oblidged to take all or any part of this quantity. The Public Utilities Commission will bill the Department of National Defence monthly for the water that is used.

(3) The Department of National Defence will make a capital contribution towards the cost thereof in the amount of $300,000.00.

2. The City hereby authorizes the Public Utilities Commission to make the necessary arrangements with the Government of Canada, and further authorizes the Commission to be responsible and to provide for the construction of the works under the harbour bed, including provision for a force main sewer. It will run for a term of twenty years with provision for renewal, but the terms of the agreement may be revised, at the instigation of any party at five year intervals, to provide that the price of water shall not be less than pump house costs, plus 50 percent (or 8 cents per 1000 gallons, whichever is higher). The agreement will also be subject at similar intervals to revision, at the instigation of any party, concerning the figure of per capita operating cost of the sewage disposal plant.

4. Plans and Specifications

UNFINISHED BUSINESS

Alderman Chown referred to the last meeting of City Council when the Board of Works proposal that a graduated speed limit be instituted in the City was defeated, and drew the attention of Council to the report by an official of the Department of Highways in which it was stated that at times a graduated speed limit is desirable.

Alderman Culcheth asked when the sewage pumping station in Portsmouth would be completed. The Mayor replied that originally it had been intended to complete the system in Portsmouth in December, but it would now be in operation early in the new year. Alderman Culcheth then asked if the building would have a brick facing, and the Mayor replied that it had been decided that it should be faced with stone, and that it was the City's policy that for all buildings erected the finish should be appropriate to the surroundings.

Alderman Keyes stated that the shoulders of the road on Highway No. 2 and to a lesser extent on Highway No. 33 needed attention. Alderman Shannon stated that a similar situation existed on Montreal Street where there were holes along the edge of the pavement. Alderman Shannon also inquired if any steps had been taken to build a sidewalk from Kingscourt School to Division Street. The Mayor replied that this matter had been taken up and some progress was being made.

The Mayor referred to the distinguished public service of the late Alderman Ross, and he suggested and it was agreed that the Clerk be directed to prepare a minute setting forth his achievements, to be embodied in the Council minutes.

ALDERMAN ROSS:

A graduate of Queen's University in Arts and Medicine. He later became a professor in the Medical Faculty of Queen's University.

He also paid tribute to Ald. Casterton for his long service. He extended best wishes to all those aldermen who would not be back next year from those who would be remaining.

Ald. Keyes, Ald. McMahon, Ald. C. A. Smith, Ald. Stone, Ald. Tugwood and Ald. Shannon all expressed their pleasure at being members of the 1952 Council and their appreciation of the leadership of Mayor Curtis.

Mayor Curtis expressed his thanks for the kind remarks and said that he had made some very good friends and pleasant associations while on Council, and that he would take away many pleasant memories since the time when he started with Ald. Casterton.

Ald. Trumpour suggested that the aldermen who would be returning next year should meet after Council and discuss the caucus for the coming year.

Ald. Tugwood referred to the gas explosion on Quebec Street and said that he would like to have the street repaired with a permanent pavement. Ald. Shurtleff replied that this had been recommended by the Commissioner of Works.

Ald. Chown wished the Mayor every success and said that he hoped to see the return of the outgoing aldermen to Council.
